Getting Nisha on board, we knew there was nothing to worry about. Having done the interiors of our clinic (previous) in the past, she yet again surprised us with her creativity in terms of optimum utilization of space and functionality while keeping in mind the flow of the public. Special consideration was given to the budget of the client while working around design and execution. Every furniture detail was discussed and revised with me to suit the needs of the staff working at the hospital. Her command over her basics were translated into spaces that were aesthetically minimalistic yet functional; where we enjoy working!

Nisha's Interiors designed interiors of our entire flat. She did an excellent job without compromising on quality or time. She possess the artistic ability and creativity to develop new innovative ideas for projects. She gave preference to our wants and needs; both aesthetically as well as functionally. We are thoroughly satisfied and happy with the work done by Nisha's Interiors. Thanks to Nisha Ma'am.

Utilization of space is really very good. The concept of work is also very good. Work has been completed as per schedule. Electrical planning has been done very well. On site operations were very smooth and we as clients were not hassled with planning, coordination and follow-ups. We had only one point contact with Nisha, which allowed work to go on efficiently, with no communication gap. Unique ideas and concepts were used keeping in mind what we wanted. We did not have to compromise on anything on what we wanted for our office.
